Canopy AIR-GO Donna

Women's chainsaw trousers, class 1 type A

1SBFA2PTR

The Canopy AIR-GO Donna resembles our Canopy AIR-GO but these chainsaw trousers are especially designed for female tree climbers. They are nicely fitted to the female shape without compromising on comfort or the trousers' airy properties. The Canopy AIR-GO Donna has 5 large ventilation areas: on the back of the legs, the crotch and on the integrated gaiters. Let the AIR GO! We don't only use a stretch outer fabric, but also the new blocking material is stretchable, as well as the lining. Definitely your perfect fit if you are looking for comfortable, lightweight and ventilated chainsaw trousers adapted to the female shape.
