Samourai

Chainsaw trousers, class 1 type A

1SRLNAPTP

Strong. Stronger... Samourai! The Samourai trousers are all about toughness. Heavy vegetation of any kind, even high bramble bush, are no match for the Tektor reinforcements. Like a second highly protective skin, it has been especially conceived for the most demanding working conditions, in which an extremely strong pair of trousers are necessary in order to work comfortably. What's more, the trousers have been completely developed to be as ergonomic as possible and are available in 3 different leg lengths Short, Regular and Tall. All this to assure you focussing on your work instead of on the environment in which you're working.
