2XD1

Heavy duty working gloves, EN 388:2016 3 2 4 2

2XD1A2VX6

Feeding the chipper with thorny branches, hauling wet or dry wood or other heavy forestry tasks, the Heavy Duty working gloves are adapted for any job where robustness is of paramount importance. Note: these gloves are not to be used whilst handling a chainsaw as they are uniquely designed to resist heavy abrasion thanks to the Kevlar® reinforcement in the palm of the hand and fingers. The reinforcement is double stitched as well as glued for the highest possible durability.

Colours

- Red/Black (412)
- Hi-Vis Orange/Black (570)

EU Size

8-12

Material

- Synthetic leather (60% polyamide - 40% polyurethane ±310g/m2)
- Heavy duty reinforcement in the palm of the hand (Kevlar 18% - Polyamide 56 % - PU 26 %)
